# HELP STOP EMERALD ASH BORER!

Emerald ash borer (EAB) will kill ALL unprotected ash trees in Minnesota.

## How does EAB kill ash trees?

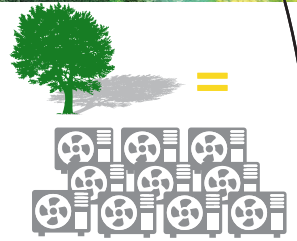

## What are the benefits of my Ash Tree?

» Reduces storm flooding & keep pollution from rivers and lakes.

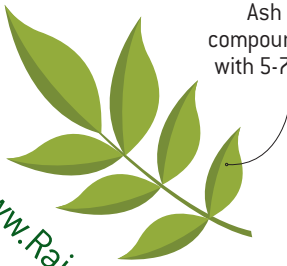

» Reduce CO<sub>2</sub> in the atmosphere by 600 lbs+ every year.

» Produce the cooling effect of ten room-size air conditioners operating twenty hours a day.

## Do I have an ash tree?

Ash have compound leaves with 5-7 leaflets

952-922-3810 [www.RainbowTreecare.com](http://www.RainbowTreecare.com)

## What can I do to help?

» DO NOT move firewood. Burn it where you bought it.

» Have a Certified Arborist inspect your trees

» Treat healthy ash trees to protect them.
